

# Enric Girona

Senior Product & UX Designer

## WORK EXPERIENCE

### Senior UX Designer

**Freelance** • SEP 2023 - PRESENT

### Senior Product Designer

**New Relic** • NOV 2021 - MAR 2023

- Designed user-centric monitoring experiences for Kubernetes observability. Work with cross-functional teams and engineers.
- Integrate Kubernetes in APM, bringing context to developers. Increased data ingestion led to higher product revenue.
- Contribute to revamping the new navigation and branding.
- Created team design workflows to improve collaboration across 100+ design members.

### Senior Product Designer • Front-End Developer

**Marfeel** • NOV 2017 - JUL 2021

- SaaS product: Delivered full feature cycles (design + front-end).
- Mobile product: Led templating and pattern systems for mobile UX consistency.
- SaaS and Mobile product: Built and documented the Design System for design & engineering teams.
- Led the migration from Sketch to Figma, consolidating our design system into a unified workspace that reduced tooling overhead and accelerated designer-developer workflows.

### Lead UX/UI Designer • Front-End Developer

**Deliberry (Antai Ventures)** • JAN 2015 - NOV 2017

- As the sole designer, I led e-commerce design and branding in close collaboration with leadership.
- Identify pain points with the data team to improve flows, increase transactions, and create a simpler and faster checkout.
- Designed customer & courier mobile applications with iterative testing. (iOS, Android)

### UX/UI Designer • Front-end developer

**Softonic** • APR 2014 - JAN 2015

- Design(UX, UI), test A/B, and code features for the Softonic Downloader, for 4M+ daily users.
- Implement new features for the in-house software catalog.
- Redesign and prototype iterations to increase software downloads.
